A PASTORAL.

[Written for THE BRANDON SUN.]

My home's on the hills of Brandon;
Believe me, it is grand on
The banks of the Assiniboine.

The hills of this now-famed city,
Worthy of many a ditty,
Look down on the Assiniboine.

The hills, now brown and sloping;
Here you never can be moping
To hear the Assiniboine.

Looking back—the boundless prairie,
O'er which we are bound to be wary—
Still there sounds the Assiniboine.

The soft rushing sound of the river,
Oh! might I hear for ever,
The roar of the Assiniboine.

Oh! it is grand to stand on
The lovely hills of Brandon
And see the Assiniboine!

To feel the wind blow lightly,
(Making old folks so sprightly),
From across the Assiniboine.

The hills—now green and rippling,
We see all the children tippling
By the happy Assniboine!

At the foot, the roses cover
The land—the waters run over
The flooding Assiniboine.

The pretty fertile valley,
Where all who pass through dally.
The valley of the Assiniboine!

So swift, yet calm and smooth, on—
To pass through farm and town, on—
Flows the wide Assiniboine!

I would not change my home on
The cheery hills of Brandon
For the wealth of the Assiniboine.

"SPA."

Brandon, Oct. 18th, 1882.

Man and His Buttons.

Did you ever see a man in the solitude and privacy of his study attempt to sew on a button himself? It is in all its details one of the most interesting performances in the world. First, he hunts for a button. Generally to secure it he robs Peter to pay Paul and cuts one from another garment. This button may be much larger than the size he is wearing. Next he hunts for a needle. Probably he goes out and buys a paper of needles. He always chooses the largest needles, having the impression that large needles will sew stronger than small needles. As to thread he gets the coarsest he can find, and this he doubles. He would thread his needle. He takes his big neeedle in one hand and his coarse black thread in the other. He bites off thread to the desirable length. Then he tries to twist to a fine point. Generally in this he succeeds in making two and sometimes three fine points out of one end. Of course he can't get all these points through the needle's eye at once. He tries hard to make that needle and thread get on friendly terms with each other, but they won't. They don't want to get acquainted. Sometimes it is the needle that kicks; sometimes the thread. Sometimes he imagines he has really threaded his needle. It is an ocular delusion. The thread has missed the needle's eye by half an inch. It is harder work than sawing wood.

At last the needle is threaded. Now he tries to sew the button on without taking his trousers off. This proves a failure. He twists himself into an uncomfortable position, and so would sew. But he can't sew. He runs the needle into himself. And the contrary thread always insists on fouling or on doubling the next button. Then one part of the doubled thread won't work harmoniously with the other part, one part draws through the button's eye first and leaves the other part behind. Then it gets hitched up, and the ambassador swears. Or the needle breaks. And then he swears. He may not swear audibly. But the recording angel knows what is going on inside of him, and debits him with every item. He swears hard. He has forgotten all about the necessity for a thimble. He jams his thumb down into the needle's head and it punctures his thumb or runs under the nail. By and by he sews the button's eye full of thread. His big needle won't pass through any more. He must stop, He ends by winding the thread as many times as it will go under the button. And perhaps he leaves off with two or three inches of thread sticking outside. A woman can, through many outward indications, tell when a man has been trying to sew on a button. He doesn't know the shibboleth of needle and thread, and it catches somewhere every time. At last the button is sewed on and he is proud of his work.

Clean Gone.

Fourteen years ago, when Chester A. Arthur was a local politician in New York, of what is known as the Custom House variety, he numbered among his friends the mate of a vessel named James Kennedy.

Just about that time Arthur made an unsuccessful effort to obtain some minor municipal appointment. The mate condoled with his political friend upon his dissappointment, and soon after sailed for Washington with a cargo of hardware. While ascending the Potomac a block and tackle fell upon the mate's head, indenting his skull in such a manner that the man became practically an idiot, and was placed in the District of Columbia Insane Asylum.

A short time ago the famous surgeon, Dr. Gross, of Philadelphia, visited the asylum, examined the case, and straightway performed an operation invented by himself, which resulted in the almost immediate return of the patient's reason, the intervening fourteen years being, of course, a complete blank.

A day or two after his recovery the mate walked out, and began strolling through the Capitol building. Almost the first person he encountered was President Arthur, who was just leaving the Executive chamber in the Senate wing.

"How are you, Kennedy," said the first citizen, affably extending his hand. "Glad to see you."

"Howdy, old man," said the sailor. How's things? Got a job yet?

"Well, I believe I have," said the Executive, with a smile. A pretty big job too. You must come up to the White House and see me."

"To the White House?" repeated the amazed mariner.

"Yes, just ask for my private secretary and he'll show you right in," and the President walked on.

"Poor old Chet!—clean gone," mused the mate. "Actually believes himself President of the United States. Smart man once, too. That just shows you, gentlemen, he continued, turning to the bystanders, that just shows you what politics and disappointment will bring a man to. Poor old Chet!"

Late advices as to the harvest in Scotland indicate that oats will yield one-third above an average, wheat in excess of an average, and barley will show an improvement in quantity, but especially in quality, over the yield in 1881. Notwithstanding the ravages of disease and other drawbacks, beans, turnips, and potatoes will do well. The total estimated value of Scotch root and cereal crops is placed at $90,000,000.

A Hindoo Hercules.

An entertainment of a novel character was given on March 6th at the house of Mr. Moarjee Goculdas, at Bombay, who invited a large number of guests to witness some extraordinary feats of strength on the part of the celebrated Deccan athlete, Bahajee Tulsiram. The company, which included many of the leading inhabitants of the city, sat in a semi-circle, at either point of which were placed several pretty little native boys arrayed in brilliant and costly apparel. The picturesque of the native ladies who were present, the white robes of the Parsee gentlemen, and the gay colors of Hindoo attire had a remarkably fine effect when seen in conjunction with the beautiful surroundings. After some preliminaries in the way of handing round for inspection the materials with which he intended to perform, and having satisfied the company that there was no deception, the athlete, a tall, soldierly man, some 27 years of age, with a magnificent development of muscle, proceeded to crush a number of cowries between the palms of his hands. He completely ground them to powder, uttering, during the process, sharp, shrill cries, which he probably intended to express the magnitude of his exertions. Then the performer placed a cocoanut upon the head of a boy, and, with what appeared to be a fearful blow, broke the nut in pieces, and scattered the milk in all directions, without, strange to say, hurting the boy in any way. The next feat was breaking a stout coil rope by simply pulling it. One of the most extraordinary parts of the performance was the following: The athlete placed a betel leaf between two of his fingers and then, by pressing the fingers together, cut the loaf so as to throw the upper part several feet high. But the most startling feat was the breaking of a stone laid on his chest. The man lay down at full length on some chairs, and a huge stone, weighing four Bengal maunds, was placed on his chest, which was simply covered by a thin tunic. Two men then struck the stone some tremendous blows with heavy hammers, and after one or two attempts the block rolled off the man's chest in two pieces. He next made several attempts to break a cocoanut with a handkerchief. His mode of procedure in this case was to roll the handkerchief tightly in the shape of a ball, and then throw the ball upon the nut. Pulling a piece of sugar-cane into two at exactly the joint, and bending a thick iron plate, were among the other feats performed. The company then went out on the balcony, where the athlete cut a sugar cane so as to throw up a piece thereof 150 feet. It was done thus: A man man held out a cimeter with the edge downward, and Bahajee struck the cane upward against the edge of the sword, the piece thus cut flying a great distance into the air. This brought the performance to a close, and the performer was then presented with a handsome shawl.

Slow Travelling.

On some of the western roads they attach a passenger car to a freight train and call it "mixed." It isn't in the order of things that such trains should travel very rapidly, and sometimes there is considerable growling among the "traffic."

"Are we most there, conductor?" asked a nervous man for the hundredth time. "Remember my wife is sick and I'm anxious."

"We'll get there on time," replied the conductor, stolidly.

Half an hour later the nervous man approached him again.

"I guess she's dead now," said he, mournfully, "but I'd give you a little something extra if you could manage to catch up with the funeral. Maybe she won't be so decomposed but what I would recognize her."

The conductor growled at him and the man subsided.

"Conductor," said he, after an hour's silence, "Conductor, if the wind isn't dead ahead I wish you would put on some steam. I would like to see where my wife is buried before the tombstone crumbles to pieces. Put yourself in my place for a moment."

The conductor shook him off, and the man relapsed into profound melancholy.

"I say, conductor," said he, after a long pause, "I've got a note coming due in three months. Can't you fix it so as to rattle along a little?"

"If you come near me again I'll knock you down," snorted the conductor, savagely.

The nervous man eyed him sadly and went to his seat. Two hours later the conductor saw him chatting gayly and laughing heartily with a brother victim, and approached him:

"Don't feel so badly about your wife's death."

"Time heals all wounds," sighed the nervous man.

"And you are not so particular about the note," sneered the conductor.

"Not now. That's all right. Don't worry. I've been figuring up, and I find that the note was outlawed since I spoke to you last.—*Travellers' Magazine.*

Shrinkage of Grain.

Farmers rarely gain by holding on to their grain after it is fit for market, when the shrinkage is taken into account. Wheat from the time it is threshed will shrink two quarts to the bushel, or six per cent. in six months, in the most favorable circumstances. Hence ninety-four cents a bushel for wheat when first threshed in August, is as good, taking into account the shrinkage alone, as one dollar in the following February.

Corn shrinks much more from the time it is husked. One hundred bushels of ears, as they come from the field in November, will be reduced to not far from eighty; so that forty cents a bushel for corn in the ear, as it comes from the field, is as good as fifty cents in March, shrinkage only being taken into account.

In the case of potatoes—taking those that rot and are otherwise lost, together with the shrinkage—there is but little doubt that between October and June the loss to the owner is not less than thirty-three per cent.

This estimate is taken on the basis of interest at seven per cent. and takes no account of loss by vermin.

Brandon has a population of between 3,000 and 5,000, and the Brandonites are now building a club-house at a cost of $50,000. Nothing Canadian will suit the requiremnts of this palace; the furniture is to be imported from England; the waiters are to be imported from England or France, and the liquors will of course be imported—they should "smile" indeed if they harbored any Canadian brand of poisons there. To be consistent and make this establishment a purely exotic plant they should import the members and hangers on also.—*Toronto Truth.*

Unity in Methodism.

By far the most important subject brought up in the present conference of the Methodist Church of Canada is that of the union of the various Methodist bodies, upon which a committee reported last week. There are now the Methodist Church of Canada, the Methodist Episcopal Church, the Primitive Methodist and the Bible Christian Church, all of whom are in perfect accord in matters of faith and doctrine, and whose only divergence is upon two or three points of church government, none of which are regarded essential as looked at by those outside these denominations and by a large part, if not the majority of members themselves. The committee appointed to this work seem to be men of great common sense as well as of liberal dispositions. They conferred with the committees appointed by the other churches and the result of their conference was as follows: "In regard to doctrine, general rules, usages, and constitutions of the lower courts, no difference of opinion was expressed. In regard to general government, there were two points on which certain concessions were desired, viz: general superintendency and lay representation in the Annual Conferences. The representatives of the Methodist Episcopal Church expressed themselves as attaching great importance to the principle of superintendency, but not in the particular form in which it has hitherto existed among them. They were of the opinion that the Church which they represented would yield the life-appointment and separate ordination; but would firmly stand by the principle of an itinerant superintendency in some form, leaving the powers and functions of the office an open question. The representatives of the Primitive Methodists and Bible Christian Churches while not advocating superintendency *per se*, expressed themselves as willing to accept the principle in order to promote general union, provided that the other bodies would concede the principle of lay representation in the Annual Conference in some form."

It will be seen that the two points mentioned are concessions to be made by the most powerful denominations concerned, the Methodist Church of Canada, whose position most entitles them to concession. Surely the minor bodies must meet them in no apathetic or distrustful spirit. The prospects for arriving at this desirable union seem now fair, and the only remaining difficulty is the adoption of the basis of union by the quarterly meetings of the Canada Methodist Churches throughout the country. If the concessions are there supported as they ought to be, then it is probable the act of confederation, if such it may be called, will be brought before a special general conference next year. According to the census returns there are 582,973 Canada Methodists, 103,272 Episcopal Methodists, 27,236 Bible Christians, and 25,680 Primitive Methodists in Canada, making a total of 739,151, or a larger number combined than of any other denomination except the Roman Catholic church which numbers 1,791,982. The benefit of such a union would be great and lasting within the Methodist bodies themselves and the step would have a still greater influence outside of its organization by its example in leading other bodies, whose differences may be thought more essential, into a spirit of toleration and forbearance which should lead to the great union that is to characterize the church of the future.

Visit of the Canadian Press Association.

(Continued.)

BRANDON.

After supper, we started for Brandon, where we were the guests of the city for breakfast. Carriages were then provided, and the party was driven through the city and for some miles around the country. The city is "beautiful for situation," built on a gentle slope, arising from the valley of the Assiniboine.

We drove across the river, and ascended the slope opposite the city. The view was a grand one. The whole country was looking its lovliest. The river stretched away on either side, as far as the eye could see—a streak of silver in a wide and beautiful green plain. In front of the city the river makes several bends, in the shape of an S, and the broad valley is filled with verdure, and small spruce trees. Away in the distance were hundreds of acres of wheat and oats on every hand, while right in front was the busy city of Brandon, stretching down from the summit of the hill to the water's edge.

The scene seemed to recall in our minds the one that a famous Jewish lawgiver is supposed to have taken part in, some thousands of years ago, when the world was young and fair. One young man murmured

Could I but stand where Brandon stood,
With a thousand dollars or o'er;
Not blizzards wild, nor a Manitoba flood,
Would scare me any more.

The land around Brandon is light, not so heavy as in other parts of the country, but the crops are splendid. The growth of the city is wonderful. In less than a year it has grown from a few tents to an incorporated city of 3,000 population, and nearly all living in houses. The energy and push of the business men can be seen in every shape. New houses are going up by the dozen in all directions, and over $60,000 will be spent on the streets this year. There are a number of fine hotels, where good accommodation can be procured. Wages are good. Laborers, $2 to $2.50; Mechanics, from $2.50 to $5 per day. Very fair board at $5 per week. We met Mr. John Russell, formerly of Richmond Hill, who has hung out his shingle as a lawyer. He likes the country, and is apparently making money. Mr. Joseph Forrester, of Victoria Square, has a large contract for culverts, etc., on the streets, and is just more than pushing things. Joseph says he is getting along splendid. After driving around in a buck board for an hour or two, over stones, and ditches, we were not sorry to go down to the grand banquet provided by the City Council in the Goverment buildings. All the *elite* of Brandon were there, and if any one thinks there is a scarcity of fine-looking girls in the North-west they make a grand mistake. There are any amount in Brandon. After dinner, toasts, speeches, etc., we started for Portage la Prairie, singing "Auld lang Syne."—*York Herald.*

Rochester, Oct. 11.—Dr. Lewis Swift, director of the Warner observatory, says the new comet discovered by Dr. Schmidt at Athens is unquestionably a fragment of the great comet broken off at its perihelion passage. This proves that the great comet must have grazed the sun, and, hence, passed through a terrible crisis. This is the second instance on record where a comet has been disrupted, the first one being Biellas' comet of 1816.

The New North-west Railway Project.

FURTHER PARTICULARS OF THE SCHEME—CONNECTION WITH WEST LYNNE.

Messrs. W. J. Kneeshaw, Willoughby Clark and Dr. W. D. Ross, of Pembina, Dakota, have supplied our reporter with additional information regarding their railway project in Minnesota. Their scheme is to build a railway from a point on the international boundary, at or near Pembina, 80 miles up the west bank of the Red River, to Grand Forks, and thence to Duluth, to connect there with the Grand Trunk Railway and water system. Their object is to establish a competing system of road with the St. Paul, Minneapolis & Manitoba R. R. (which is practically the C. P. R.) or in other words to the C. P. R. from the Red River valley east and also to give railway facilities to all that territory lying between Red River, the Northern Pacific line, Missouri River and the International boundary. This tract of country is, by virtue of an agreement between the St. P., M. & M. R. R., and the Northern Pacific, entirely under the former's absolute control. Such is the state of freights there now, that shippers have to pay from $60 per car for low lumber freight to $150 per car for first-class freight over the St. P., M. & M. R. R., from St. Paul to St. Chicago are less than one-third for the same distance, and only $60 from Montreal to Chicago, three times the distance. Wheat that lately brought 85 cents on the Canadian side, sold for $1.35 just over on the American side, and many farmers paid the 20 cents duty and sold their grain at a profit to Minnesota. The cause of all this is simply want of competition in transport, and the fact, also caused by the same influence, that there are half a dozen buyers on the American side to one in Manitoba. Between the duty and the Syndicate the Manitoba wheat growers have no show. It is proposed to obviate both these difficulties. If connection can be made by the new line with the G. T. R. system east, grain can be sent through in bond, and the monopoly of the St. P., M. & M. will be broken. The Manitoba Legislature has granted a charter to a line from Emerson to Portage la Prairie, the legality of which will be contested by the C. P. R. Co., the latter holding that it is against the conditions of their Federal charter prohibiting the construction of other lines south, or southwest from their line to the boundary. The local line called the Emerson and Northwestern R. R. is bound to immediately contest this claim of the C. P. R. for their disallowance. If the former are successful they will unite with this new line, the subject of this article, and make a continuous line from Portage la Prairie to Duluth. The projectors of the Pembina & Duluth road also have a scheme to extend their road westward from Pembina, just south of the boundary, and may thus go even to the Pacific Ocean, thus tapping a wide belt of country just north of the boundary over which the C. P. R., by their charter have complete control, and especially opening on the fine Souris River and Pembina and Turtle Mountain districts. This is a scheme which, evidently more than any other, will obviate the bad effect of the prohibition privileges held by the Syndicate. The projectors claim that the building of their line will influence the C. P. R. to hasten the construction of the section of their road north of Lake Superior as their only present eastern outlet is *via* Chicago, hundreds of miles longer.

The above named projectors offered to give the Grand Trunk their franchises, the right of way, and to build stations at Duluth, Grand Forks and Pembina, if they will build and operate the road or to give them the road at cost after they (the projectors) had built, if the G. T. R. would agree now to take it. The G. T. R. directorate stated that if the Emerson and Northwestern charter were allowed and added to the scheme they would agree to the offer. Without the Emerson and North-Western, they were personally in favor of agreeing to the offer, but wanted further consideration. The Pembina gentlemen express their determination of carrying on the scheme by all means, and if the G. T. R. declines, they will make offers to the Chicago, Milwaukee and St. Paul the Chicago and Northwestern, the Chicago, Rock Island & Pacific, the St. Paul, Brainerd and Grand Forks or the Grand Forks and North-western. All the roads are so situated that they can make connection. The road passing through a rich pine country in its eastern section and through the famous Red River wheat belt in its western part will doubtless be sustainable by local traffic. The engineering difficulties are extremely light.

Blind Egyptians.

It does not appear to be be generally known that a large portion of the Egyptians are blind. More than ninety per cent. of the native population suffer from chronic aphthalmia, caused by microscopic particles of sand, blown from the great desert by southerly winds. Some idea of the force of these sand blasts may be formed from the fact that the hieroglyphics on that side of Cleopatra's Needle, now in Central Park, N.Y., which was exposed to the south, were almost obliterated. Europeans after a prolonged stay in the country suffer from the same cause, and the disease is very pronounced in children of Europeans born in Egypt. It is easily understood then, that the Egyptian soldier, however well he may be drilled, is not dangerous as a marksman, and this accounts for the impunity with which the English troops have so often advanced to within 200 yards of Arabi Pasha's lines. But this is not the only drawback of the fellah army. The men are physically unable to stand continued hard work and and privations. The total absence of all sanitary precautions, hereditary and chronic diseases, filth, sudden changes of temperature, and the most disgusting immorality have reduced the Egyptian army to a mere shadow. Over 30 per cent. of the entire population suffer from consumption, and it is next to impossible to meet with a native-born fellah who can boast of more than forty years.

Mr. Meredith deprecates the demand of Manitoba for more railways. We do not know that this is strictly speaking a matter for legislation in that Province; but it is certain that if Manitoba does not get more railways it will be a detriment to Ontario. Still, Manitoba can be left to deal with that point, and from the tone of the people they are likely to deal with it in a way that will make Sir John open his eyes.

On an early day Mr. A. W. Ross, M. P. for Lisgar will be presented by the citizens of Winnipeg with an address and testimonial as an evidence of the esteem in which he is held by the business men of the city. Mr. J. S. Coolican is the originator of the idea which is by everybody admitted to be a good one.

THE BRANDON SUN.

BRANDON, MANITOBA, OCT. 26, 1882.

THE CITY'S HEALTH.

Although we have very little reason to complain of the sanitary state of our city, we have in our midst several cases of a low type of fever, a disease which seems to be indigenous to the country, and not to the city by any means. Neither is it the typhoid fever, as is reported by some. The fever, however, is bad enough to have attention given to it, and the action of the Mayor in calling the public meeting for Tuesday evening last, is commendable, inasmuch as at the time there were scattered throughout the city several cases such as we have spoken of, the danger of which was accelerated from the fact that they were mostly young men having no homes here, and, therefore not the care necessary at such times.

When we say that fevers should form no part of the autonomy of this place, we speak advisedly, as the site of the city is high and dry, its drainage, naturally, being of the best. The reason for the existence of any, therefore, is to be looked for elsewhere, and the following letter read before the Council Board on Monday evening last may enlighten many on this subject, and all will readily see how potent the reason given, and, if before the reason for fever germs was a mystery, it remains so no longer. The drainage, as we have said is good, and the water is probably the best in the country. That we have any fever, then, is to be accounted only from the little care that a travelling or rather transient public takes of itself. There is too much hurry to gain riches and make wealth, and too little attention paid to the laws of nature. A dietetic system is ignored, and, in many cases, those of ablution are for a great portion of the time set aside. Besides this, there *are* local reasons, of which many have not heretofore been aware, and the chief one is the water we drink. It looks pure, is cool, bright and sparkling, but, if we are to accept the writer of the following letter as an authority, in it lie those gems for which we have been looking; and hidden there is to be found the seeds for which we have been searching. We know that the soil over this country is composed chi[illegible] vegetable matter, and its com[illegible] or decomposition rather, is m[illegible]ous. Through this filter [illegible] water used in the city [illegible] result is a natural o[illegible] known, the wonder is [illegible] been so little [illegible] is, though, not th[illegible] alarm, as, in the [illegible] sickness [illegible] to the population [illegible] lessened and consi[illegible] were proper care [illegible] by those who are [illegible] attention paid to those who [illegible] The latter we hope to [illegible] now that the city has [illegible] towards the erection of a [illegible], and, as the note of warning is [illegible], we have reason to believe the people will heed its voice, and exercise such precautions as are necessary. The action of the Council in entering into arrangements for the sinking of artesian wells, and thus giving the city a water supply, the purity of which cannot be doubted, will leave no excuse in that quarter and materially add to the sanitary arrangements of the city. The following letter from Dr. Spencer was read before the Council Board on Monday night last, and it was in response to it that action in the matter of artesian wells was taken:—

To the Mayor and Corporation of the City of Brandon.

SIRS,—

Mr Gurney has handed me a letter which he has just received from a Mr. Piper in reference to the construction of artesian wells. This gentleman is now engaged boring these wells at Winnipeg and the Portage, and I am of the opinion that something of this nature ought to be introduced into our town.

If the corporation would have half a dozen of these wells placed in convenient places for public drinking, I feel assured that the improved sanitary condition of this town would soon be notably evident.

I believe, to a very great degree, the prevalence of so much fever in this country is due to the people drinking surface water, or in other words water which has either filtered through the decayed grass of the prairie, or through earth whose origin has sprung from this source.

I enclose Mr. Piper's letter for your consideration.

DR. SPENCER.

Brandon, Oct. 25th, 1882.

It will be understood that it is with no desire to create exaggerated ideas here, but with a view to prevent its needless spreading. There is no cause for alarm, and so little danger is there that it might have gone on unnoticed far some time, but an "ounce of prevention is worth a pound of cure."

THE ASSESSMENT.

The Court of Revision for the city takes place on the 3rd of November It is not probable that many appeals will be made against the assessment, as from what we can learn, although some may consider the values placed at a high figure, it has the advantage of being uniform. This is the great desideratum in all assessments. It is not the amount placed against you on the assessment roll, but the variation in values, as the greater the amount the less the rate. In the case of our city, we are of the opinion that the rate per dollar will be but nominal. As it is not the desire nor intention of any of the Council to burden the people who are here at present, and who are spending their money freely in private enterprise towards the building up of the city, with the payment of the vast improvements now under way, and which are of a very permanent character. The citizen of five, ten, fifteen, and twenty years hence, to whom these improvements are of value, will be asked to pay it, and the pioneer—the man who should be encouraged—will be required to pay the merest rate on his taxable property, to cover current expenses. Considering these things, it might be wise to make the expenses and work of the Court as light as possible, and unless there is some grievous error, such as discriminating difference in the values of property holding relative position, or an assessment improperly named. We merely throw out the suggestion, as we fully believe the Council purpose making the rate very low and they will be materially assisted in this way. It is proposed to issue debentures, to cover the present expenditure for improvements,

Political.

During the past two weeks, there has been considerable stir in political circles. The by-elections in Ontario have come off, and the result is a victory for the ministerial party.

In our own province, the Conservative party has been putting its best foot forward, and held a convention at Winnipeg during the past week. The city of Brandon was represented by the following gentlemen:—T. M. Daly, jr.; J. E. Wooodworth, F. Granville, Geo. Winters, C. B. Edie, E.P.P., John Doran, Mr. Phippen, J. Z. Rogers, R. Bennett, C. C. Helliwell, Neil McDonald, Ducan Shaw, J. A. Hanley, S. H. Bower and John J. Parker.

Plum Creek—Mr. Oswald.

Upwards of one hundred delegates were present, and a number of resolutions passed. They are laid down as the platform of the Conservative party for this province.

Thos. Greenway, M.PP., acknowledged leader of the Liberal party in the Local Legislature, has issued an address to his constituents which foreshadows the political grounds on which the Norquay Administration is to be fought at the approaching general election. Its planks are as follows:—

(1) A firm stand for Provincial rights; (2) a most determined and combined opposition to monopoly; (3) increased subsidy and acquisition of public lands on securing an equivalent to place us relatively in the same position as the other Provinces of the Dominion; (4) the use of every legitimate influence to remove the excessive burdens laid upon the people by way of contribution to the Dominion Exchequer; (5) the utmost liberality in dealing with those who are willing to undertake the construction of railways; (6) immediate acquisition of our school lands, the proceeds of which shall form funds for the promotion of education, of most rigid economy and careful supervision in the expenditure of public money; an extension of the boundaries of the Province when we are in a position to undertake our present responsibilities upon such terms as will be advantageous.

Brandon Hills.

MR. EDITOR.—The steam thrasher is now in full blast in this district. The results are highly satisfactory, though we have no fall stories to tell similar to those that appeared in your columns regarding the farming operations Messrs. Whitehead and Matheson.

The favorite machine appears to be [illegible] manufactured by Messrs. Stevens, Tur[illegible] Burns, of London, Ont, one of which [illegible] purchased by Messrs Miller and Sta[illegible] our most enterprising young men, [illegible] ficiency, occasioned by the non-ar[illegible] proper smoke stack, these gentle[illegible] Messrs. Henderson and Frost, ar[illegible] ing business, and perform th[illegible] most satisfactory manner. [illegible] per acre ranges from 25 to [illegible] cats from 50 to 60. The [illegible] dick and Sons, footing [illegible] figure of 4750 bushels [illegible] of wheat yet thrashed o[illegible] Messrs. Foxall, which aver[illegible] acre. The Brandon Agr[illegible] have a salutary effect [illegible] interest throughout the [illegible] not fail to bear fruit in the [illegible] year.

ALNEWOOD.

To the Editor of The Brandon Sun:

SIR,—Meeting Mr Newcombe Dominion Land Agent of Regina on his return home [illegible] to my mind a little [illegible] worth while relating [illegible]

[illegible] the eve of the departure [illegible] who had labored in this dis[illegible] sionary during the vacation [illegible] people wished to present that [illegible] with an address, and in the absence of Newcombe—to whose lot, I understand, these duties usually all—no other [illegible] can could be found with sufficient [illegible] gallantry or—shall I say intelligence—to perform the work and Mrs Newcombe was not invited or requested to assist but was compelled to write the address or see it unwritten for all time. 'Tis well that the culture and refinement of a lady such as Mrs Newcombe is well known to be, should be appreciated; but when a lady residing in such a hub of enlightenment, with the cares of a household on her, and her husband in the hospital is forced to assume extra duties of this kind it reflects little credit on the host of Dominion, Provincial and municipal dignitaries by whom she is surrounded. Where were these Solomons? Where the wisdom of the merchants, the erudition of the many officials and the polished fluency of the leading lights that our proud district boasts of? But echo only answers the query and the parties interested only hide their heads—or ought to. Let us hope for a change and when such an occarion arises again may we have one man, a warden, a councillor, a trader, an an agent for lightning rods or something else, a J P, a P M, or an M P (man of brains) to lift the shadow that at present hangs heavily over the beaming crew

Yours, etc.

EAST MOUNTAINEER

THE PRIZE LIST.

Below will be found the corrected prize list of the Electoral Division of Brandon Agricultural Society's first exhibition, held in this city on the 11th inst. It speaks for itself, and will give a very fair idea of what the exhibition will amount to in another year, when more effort will be given to it. As before stated, both inpoor and outdoor departments were well represented:

HORSES

Heavy Draught—Stallion, 1st prize, D. McCaig; 2nd, D. McCaig; team, 1st, John Hanbury.
General Purpose—Stallion 1st D. McCaig; team, 1st Peter Grant, 2nd, Reynolds & Tripp.
Carriage Horses—Team, 1st, Reynolds & Tripp.
Carriage Horses—Team, 1st, Reynolds & Tripp, 2nd, do.
Single Carriage—1st, White, 2nd, Van Tassel.
Saddle Horses—1st, James McGregor, 2nd, Wm. F. Brooks.
Colts—2 year, 1st John Doran.

CATTLE.

Thorough-bred Durham Bull—1st, F. Clegg; 2nd, C. Whitehead.
Ayrshire—Cows, 1st C Whitehead.
Grades—Cows, 1st F Clegg.
Colts—1st, W D Matheson; 2nd, F. Clegg.
Yoke Oxen—1st, Jno McCort; 2nd, G S McLeod.
Heifer, three years' old, Wm Kennedy, recommended.

SHEEP.

Pair Ewes, 1st, E J Reid, 2nd, do; Lambs, 1st, do, 2nd, do, ram, 1st, do, 2nd do; Fat, 1st, do, 2nd, do.

PIGS.

Berkshire Boar, 1st, Alex Stinson, 2nd F Clegg.
Suffolk Boar, 1st, Jno Young.

POULTRY.

Pair fowls, 1st, R A Neelands.

GRAIN.

Wheat—Fife, 1st W D Matheson.
Oats—Black, 1st, D McPhail; common, 2nd, W L Matheson.
Barley—1st, D McPhail.
Peas—1st, Jno W Stewart.
Millet—1st, Jno W Stewart, extra.
Beans—1st, Jno W Stewart, extra.

VEGETABLES.

Potatoes—Early Rose, 1st, J W Stewart; 2nd Jno B Davis; any other variety, 1st, do; 2nd, G S McLeod.
Cabbage—1st, Jno W Stewart.
Turnip—Swede, 1st, W F Brooks; 2nd, G S McLeod.
Mangel Wurtzel—Long Red, 1st, G S McLeod.
Blood Beet—Long Red, 1st, G S McLeod, 2nd, J M Cameron; fabric, 1st, J B Davis, extra.
Long Orange Carrot, 1st, J W Stewart, 2nd J B Davis; Short Horn, 1st, J B Davis, 2nd. G S McLeod; Medium, 1st, J B Davis, extra.
Citrons, 1st, Jno W Stewart.
Onions—Potatoes, 1st, R B Hetherington, 2nd, J B Davis; Large White, 1st, J W Stewart, Red, 2nd, J W Stewart.
Pumpkins—1st, J B Davis.
Parsnips—1st, J W Stewart, 2nd, J B Davis.
Tomatoes—1st, J W Stewart.

DAIRY DEPARTMENT.

Butter—Prints, 1st, J W Turnbull; Roll, 2nd J W Turnbull; 10 lbs. Crock, 1st, Jno Doran, 2nd J W Turnbull; Firkins, 1st, F Clegg.
Bread—Home-made, 1st Mr D R Taylor; 2nd Mrs C Whitehead.

LADIES' DEPARTMENT.

Netted Quilt, 1st, Mrs W F Brooks, 2nd, D McPhail, Crochet Quilt, 1st, Mrs F J Stripp; Sofa Pillow, 1st, C Whitehead, 2nd, Mrs F J Stripp; Collection Crochet, &c., 1st, Mrs Hodgins, 2nd, Mrs F J Stripp; Hair Flower, Mrs stripp.
Special—Pair hand knit mits, 1st, D McPhail; Tea Cosy, Mrs Wm M Rose; Slipper Holder, Mrs Hodgins; Lace Tidy, do; Wool and Silk Brackets, do; Fire Screen, Mrs John Maltby; Macreme Lace Chairs, do.

BOOTS AND SHOES.

Pair Riding Boots, 1st, Wm Senkbeil; Calf Boots, 1st, do; Button Shoe, 1st, do; Walking Shoes, 1st, do.
Harness, double team—1st, Duncan Bros.

SPECIALS.

Waggons, 1st, McKenzie & Russel.
Sulky Plough, do.
Painted Quilt, G W Alexander.
Brake Attachment, H N Way.
Water Colour Painting, McCoskie & Co.
Fanning Mill, 1st, A Wren & Co., 2nd, Winter & O'Neal.
Horse Shoes, 1 pair, 1st Jno Cameron.
Special—Set Bob Sleighs, Jno McNab.

The question of whether fruit can be raised in Manitoba or not seems to have been settled by Mrs. Joseph Baskerville, of Emerson, who secured 1st prize for collection of Manitoba fruit preserves with a collcetion of sixteen different varieties.

MARRIED.

COOTER—CHURCHILL.—On the 18th inst at Elton, by the Rev Thomas Lawson, Mr Robert Cooper to Miss Margaret J Churchill, of Goderich, Ont.

TWO HOUSES TO LET!

One furnished Good cellars Three blocks from Rosser Avenue For particulars enquire at this office 41-1t

HOUSE TO LET.—Small frame house on 7th St., one door South of Albion Hotel. Apply at New Cheap Store. J. R. MILLER.

WANTED.—Any quantity of good Potatoes and all kinds of Vegetables. Highest cash or trade prices paid at the New Cheap Store. J. R. MILLER.

TO LET.—Furnished rooms or board and lodging for a few gentlemen at the New Cheap Store, 8th St., 2 doors north of Rosser.

WANTED.—A list of lands for sale in the neighborhood of Brandon, whether homestead, pre-emption or Syndicate. Send (with price) to Box 20, SUN Office.

LANDS FOR SALE.

Two Half-sections of Syndicate Land within Ten miles of Brandon will be sold cheap.
W. BARR,
41-1t 12th St., Brandon.

WANTED!

Four good carpenters to put up a house at Moosomin; either by the day or by contract. For particulars address E. M. R., this office.

NOTICE!

I, James Brandar, of Tp. 7, Range 18, Sec. 23, do hereby give notice that I will not be responsible for the debts contracted by my wife Elizabeth Brander. All parties doing so shall be on their own responsibility.

LOST—On 3rd inst. a small black pocket-book containing notes, cheques and other papers of no value to any one but the owner; the finder of above will be suitably rewarded by returning same to this office, or to
41-2t W A MACDONALD, Solicitor.

FOUND ESTRAY on the Qu'Appelle trail to Moose Jaw, a Bay Mare. The owner can have her on proof of ownership, by applying to John McKay, at McKay's Ranch, Moose Jaw, Sec. 28, Tp. 16, R. 29.
39-3t JOHN McKAY.

Came on the premises of the subscriber, section 1, Tp. 11, range 18, on or about the 1st of August a Brindle Cow with crooked horns The owner can have the same on proving property and paying expenses.
A. FOSTER
Grand Valley Oct 25th, 1882. 41-3t

STRAYED [illegible] section 16, tp. 11, range 20 west, [illegible] Cows. Owner can have same by giving description and paying expenses.
E. CHAPMAN.
[illegible] 1882 41-3t

STRAYED upon the premises of the subscribers, sec. 24, tp. 10, range 20, two cows, on or about the first of October. Owner can have same by proving property and paying expenses.
41-3t WEBSTER & FOLLIOTT.

STRAYED OR STOLEN from Souris (Plum Creek) two Canadian Mares, one six and the other three years old. The younger being dark brown with white stripe on face and four white feet; the other a dapple chestnut with star on forehead, and halter on head when last seen. Information leading to their recovery will be liberally rewarded.
REV. MR. HARRISON,
41-1t Plum Creek.

STRAYED, on the 15th of Oct., from the premises of the undersigned, section 8, township 12, range 20, county of Brandon (in English Reserve), two strawberry roan cows, branded with the letter Z on the left side. One of them also has a bell on, and a blister on the left side, caused from a burn, the other has also a hole in the left ear. Any person giving information that will lead to their recovery will be suitably rewarded by Messrs. Longley & Scott. 41-3t

Sign of the Golden anvil,
8th St., near Beaubier House.

THE BRANDON SUN.

BRANDON, MANITOBA, OCT. 26, 1882.

His Honour Judge Walker arrived from the East on Tuesday last.

We would refer our readers to the advertisement of Mrs. Kirkpatrick in another column.

Mr. Paul thinks he is supplying a long-felt want in opening out his stock of guns and ammunition on Rosser Avenue.

Liquor licenses have been granted to all the applicants from Brandon, making in all nineteen hotel and two shop licences.

To the Work.—Rev. T. Lawson starts in a day or so for the Moose Mountain country, whither he is being sent by the Supt. of the Methodist Missions to look over the ground and report.

The name of Mr. D. Ford Jones, ex-M. P. for South Leeds, is mentioned in connection with the vacant seat in the Senate, previously held by the late Hon. John Hamilton, father of the late G. Hamilton.

What's in a Name?—The Brandon Sun suggests Golgotha as a more appropriate name for Pile of Bones than Regina—the new Nor.'-west capital. We propose Bonaparte (bony part).—*Ayr (Ont.) Recorder.*

Particularly noticeable at the late exhibition held here was the furniture dispay of the several cabinet-makers of the city. Mr. G. D. Lockhart had handsome parlor and bed-room suites on hand, which were really a credit to themselves and to the country.

"No Quorum" was announced by Chairman Ferries at the should-have-been school meeting on Thursday evening last, and the shivering trio dispersed hoping that on this (Thursday) evening a quorum would be on hand at 7 o'clock and the school-house heated and lighted.

Something Comfortable.—Messrs. Shillinglaw & Son, looking after the comfort of the citizens, have laid in a stock of lamb-wool mats that are worthy of inspection. These same gentlemen have a stock of furniture equal to a large demand, some of which was on exhibition at the fall fair. They will remove to larger premises in a short time.

Supposed to have been Killed in the North-west.—D. A. McLeod went from Mitchell to the North-west in April last. His occupation was that of builder, including bridge building. There was some time ago a report that he had been killed near Portage la Prairie, and as his friends have not heard from him, they fear the report may have been true. Any information will be gratefully received by Henry A. Pascoe, 126, Horton-street, London, Ont.

We understand Messrs. Winter O'Neail and Co., of this city have given to Mr. John O'Donohue, of the Globe Works Co., London, Ont., an order for $35,000 worth of their implements, consisting of the celebrated Globe Harvest and twine binder, mowers and hay rakes. We congratulate Mr. O'Donohue on his success in securing the patronage of the above firm, as they are the most successful and energetic business men in our new city.

Leg Broken.—On Thursday morning last, about one o'clock, Mr. Heaslip, of Langvale arrived in the city, with a Mr. McPhail, who had about 4 o'clock on the evening of the day previous, broken his leg by falling off a load of wood, and the wagon running over him. Mr. Heaslip complains that he could get none of the hotels to take the man in, though suffering excruciating pain with his broken limb. At last, one of the city doctors kindly gave him a room in his apartments, and under his care he is progressing favorably.

Returned.—Mr. Geo. F. Newcombe, the popular land agent at Turtle Mountain, arrived here Tuesday, on his return from Buffalo, N.Y., where he has been under medical treatment for the past two or three months. We are sorry to have to state that though feeling slightly better after the short respite from the arduous duties of his office, Mr. Newcombe has not experienced the recovery he and his many friends had hoped for. All the professional treatment obtainable in so short a time has failed to renew a constitution worn out by unremitting attention to business through so many years of hardships, but it is to be hoped that he may yet be restored to perfect health.

The City Hospital.—Owing probably to the large attendance at the auction sale on Tuesday evening, the attendance at the public meeting was small. To those who were present, however, the Mayor stated his reason for calling the meeting, and Mr. D. M. McMillan was appointed secretary, After a free discussion, it was resolved that a Committee consisting of Rev. Messrs. Boydell, Lawson and Ferries, Drs. Spencer, McDiarmid, Shaw, Fleming, More, and Macdonald, Hon. J. W. Sifton, M. P. P., Mayor Daly, and Messrs. F. Granville, James A. Johnston and Will. J. White, and Aldermen Fortier and Winter be appointed, to take such steps as will most speedily tend towards the establishment of a hospital in this city, and to meet on Saturday evening next.

Chief Engineer James, who has returned from the western end of the C. P. R., says that the line is now permanently located to Calgarry and permanently located to the South Saskatchewan. Two good crossings of the South Branch have been found, but a definite choice had not yet been made between them. The Saskatchewan valley is entered by the way of Bull's Head Creek and Medicine Hat Coulee. The country around the crossing is finely undulating. Grading will be completed to Maple Creek, ninety miles west of Strong Current Creek, by November 1st. Graders are now at work within twenty miles of the South Branch, and their work will probably be completed to the Crossing by the 15th of November. The tracklayers will reach Strong Current Creek by the 26th inst. It is intended to reach the South Saskatchewan this autumn, if possible, and the winter terminus will probably be there, while it is hoped to have the line in full running order to that point this fall.

Knights of the Punch.—Yesterday morning our city was visited by about one hundred railway conductors, accompanied by about fifty ladies. There were representatives from nearly every State in the Union, as well as from the Eastern Provinces. They partook of breakfast at the different hotels, according to the billets provided by the Manitoba Division of the Order of Railway Conductors, whose guests they were, and then adjourned to the Beaubier House, where the Mayor formally received them. Introduced by Trainmaster Niblock, he expressed his regret that the civic authorities had not been apprised of their visit. On behalf of the city and aldermen, in a neat speech he welcomed them to the Queen City. Bro. C. S. Wheaton, of Elmira, N. Y., presiding officer, made an able reply, in which he gave the feeling of the visitors when he expressed his surprise at the growth of this city. The inexpressible Dave Young was on hand, having put aside his farm work in order to meet the "bhoys" once more. He entertained the company, as only he knows how, by singing in excellent style some favorite selections. The Beaubier, and in fact all the hotels in the city did their best to entertain the guests during their short stay. They left at eleven o'clock for Winnipeg.

City Council.

The Council met on Monday evening last. The Mayor in the chair. All present but Ald. Buchan and Horne.

A communication was read from the Secretary and Chairman of the School Board asking for a deputation to be heard with reference to an additional grant of $15,000 for educational purposes.

Rev. Mr. Ferries, as Chairman of the School Board, and one of the deputation was heard. He spoke of the urgent need of the increased grant, owing to the greatly increased number of scholars, and the more than rapid growth of the city. The interest the Board of Aldermen took in all matters pertaining to the interests of the city, led him to be hopeful concerning the required grant.

Mr. White, of the deputation, and a member of the School Board, was also heard. It was, he said, highly necessary that steps should at once be taken towards increased school accommodation When the Board of Trustees applied for the previous grant of $3,800. it was supposed that would have been sufficient to have carried through for the year, but the increased pupilage showed that it would no more than pay current expenses. The Board has found it necessary to enlarge school and grounds, and to judge from the past few months, ward schools would be required during the ensuing summer. It was with the view to meet this as well as the increased cost of tutorage that the extra amount of $15,000 was asked for, and he hoped that the Board would see its way clear to adding the same to their estimates for the ensuing year, as already they had let the contract for an addition to the school-house at a cost of $5,840.

Ald. Winter, as a member of the School Board, and of the Council, rose. He said he would have liked for the deputation to have laid some figures before the Board for consideration. This had been neglected, The School Board has already asked for some $3,800, and now come wanting $15,000 more, and before it was granted something more definite should be understood. He spoke, though in favour of the grant being made, and of the Council taking it upon their shoulders. The School Board could place it before the people, and had it in their power to issue debentures, but that body thought it would be more economical to have the Council do it, as the city would necessarily issue debentures to cover its indebtedness.

Ald. Lockhart, another member of the School Board, was of the opinion that it would be better for the Council to take the matter in hand.

Ald. Pilling, as a School Trustee, also expressed his opinion in the matter, which was similar to that expressed by those preceding him.

The Mayor did not think it lay in the province of the Board to place in their estimate for the erection of schools. He was glad to assist the cause of education, and would not like to throw anything in the way of this grant, but thought it better that the opinion of the City solicitor be obtained before any further action was taken.

On motion, the question was referred to the city solicitor.

A communication was read from D. B. McLaurin, asking for an extension of time for the completion of his work from the 1st of November to the 1st of December. Referred to the Board of Works.

From Duncan Sinclair, asking for sidewalk on 5th St., from Pacific and Rosser Aves. Referred to Board of Works.

From J. E. Woodworth, stating that he had completed the First St. bridge and according to the city charter, now asked the city to take it off his hands. He offered it for $25,000 cash or debentures.

On motion the matter of purchasing the First and Eighteenth St. Bridges, was referred to a special committee consisting of Aldermen Winter, Sifton, Fortier, Bower, Brock and Pilling.

From L. M. Fortier, enclosing letter from the city solicitor, who gave as his opinion with reference to the appointment by the city of an Inspector of Weights and Measures that it would be illegal, the Dominion Government reserving to itself any appointment of such a nature.

Ald. Fortier spoke of the need of an Inspector here.

It was therefore resolved that the clerk be instructed to write to the Inland Revenue Department, asking for the appointment of an Inspector of Weights and Measures for this city.

A communication from J. S. Ronald, of Brussels, Ont., who is building the steam fire engine, was read in sections, the clerk performing the principal portion of the work. Mr. Ronald complained that his men had been sick, that labour was scarce, and money presumably more so, as he asked the Council to pay the freight on the engine before it was shipped. The Clerk had only got through six pages of the letter, when he was cut short by

Ald. Winters, who thought it better to dispense with the reading of the rest of the letter, as they had the substance of it now.

Ald. Evans: We have not. More important matter follows.

A voice: If he would do some work and less writing, the engine might be finished.

A discussion then took place whether the Council was to pay the freight in addition to the price of the engine.

Ald Winters did not think so, and with Ald. Evans thought if Mr. Ronald's tender were found it would be seen that he was to delivor the engine here for $3,500, and he did not believe in the city being "bull-dozed" to the extent of $300 or so in freight charges.

It was moved by Ald. Sifton seconded by Ald. Brock, that the chairman of the Fire, Water and Gas Committee, telegraph to Mr. Ronald that the Council would advance the freight on arrival of engine here.

The opinion being formed on the part of the Aldermen that this would not hold the Council to pay this excess of the $3,500, unless so stipulated in the tender it was allowed to carry.

Ald. Fortier, as chairman of the Cemetery committee, reported that he had, in company with Mr. Woodworth, visited Sec. 20, tp. 10., range 19, the spot spoken of as the cemetery grounds, and recommended that eighty acres of it be purchased, and that an offer be made Mr. Woodworth.

On motion it was resolved that the Council visit the spot this (Thursday) afternoon.

Ald. Smart wished to know what power the Board of Works had to authorize the payment of the accounts.

Ald. Sifton said that the Board had the power to recommend the payment of any account, but in this case the amount they recommend to be paid had been paid before coming before the Board, and he would like to have an explanation.

The Mayor said that it would be remembered that at the last meeting of the Council he had stated he was not in favor of the passing of the account. Since then the Board of Works had met, and Mr. McLaurin had appeared before them, and explained his case in such a way that it was plain to be seen the work would be stopped if the money was not forthcoming, and it was only after ascertaining the names of the members of the Board of Works present at the meeting recommending payment of the account, and after a war of words with the Engineer and Contractor, in which he gave the latter to understand what was reqxired of him, that he agreed to sign the cheque. He fully realized the responsibility of the situation, and it was only with the best interests of the city at heart that he signed it. Had he not done so the work would have been stopped.

Ald. Winter:—Your Worship, that was the only thing that could be done. The amount had to be paid or the work stop, and this we could not afford. It was not the intention of the Council at any time to cripple Mr. McLaurin, but to obtain a hearing from him, and this we have succeeded in. It was very necessary to pay the account, and it is now quite competent for the Council to endorse the action of the Board of Works.

Ald. Lockhart while not rising to censure the action of the Mayor, was of the opinion that the step taken was a little irregular, and, as on another occasion, there had been a like irregularity, he hoped that in future all matters of the kind would pass through the proper channel. Committees were named to perform certain duties, and they should carry them out, and not leave them for the Council to finish.

The Mayor explained that at last meeting of the Council the Council went into Committee of the Whole, and passed several accounts.

The Report was adopted.

Ald. Winters moved, seconded by Ald. Evans, That the four-plank sidewalks be changed to four-foot sidewalks, and cut cross-wise.

The Mayor.—You will readily understand that a Conservative Convention was held last week in Winnipeg, and Ald. Winters was a delegate. His wishing to have broader sidewalks is the result.

Ald. Winters.—His Worship was also a delegate.

The motion was carried.

INQUIRIES.

Ald. Sifton asked if the lumber placed on the sidewalk between 4th and 5th streets was according to specification.

It was explained that the supply had run short, and some culls had to be used in the meantime.

Ald. Smart asked concerning the street crossings over the railway track.

The Mayor said it was the duty of the C. P. R. to make them, but if they did not the city should attend to them.

On motion Mrs. Williams was granted sufficient money to carry her and family to New York.

The Mayor read a letter, published elsewhere, concerning the sickness in the city, and hoped that a large attendance would be present at the public meeting on Tuesday evening.

The question of artesian wells was taken up, and on motion the Clerk was instructed to write Mr. Piper concerning the sinking of artesan wells, and that one be sunk on the corner of 8th street and Princess avenue, under the superintendence of Ald. Evans.

Ald. Evans inquired if there was any limit to the number of licenses, or was it the intention to license all the grog shops in the place.

The Mayor.—There is a limit; all that are going to be granted have been granted. As to their granting licenses to any of the grog shops, they are not going to do it. In two weeks there will not be a grog shop in Brandon. He suggested that the Clerk write the department asking it the number of licenses granted, to whom, and for what purpose. It was a neglect on their part that they had not sent such a list before.

Mr. Johnston, having been privileged to speak, asked if it was the purpose of the Council to drain Victoria avenue.

Moved by Ald. Sifton, seconded by Ald. Brock, That the drain on Victoria avenue, as requested by Mr. Johnston, be made.—Carried.

No other business coming before the Council it adjourned.

THE BOOM REVIVED!

According to announcement Prof. Joseph Wolf appeared at the Beaubier House on Tuesday evening to discourse on lots, The large and enthusiastic crowd that collected to do honor to the venerable professor, showed that the confidence in the future of the city and the demand for homes within its limits are far from waning, and the able lecture on the subject renewed the wonted eagerness to invest always shown by an appreciative lot of business men such as are found here The bidding was much more keen than many anticipated, and prices ranged higher than was looked for, most of them being little under those realized in the most booming times Property in the outlying portions of 23 and adjoining sections amounting to about $50,000 was knocked down, and the sale was to be resumed last evening in a larger hall, when, no doubt, a much greater sum will find safe investment.

Real Estate Conger informs us that the "Johnston Estate" property, for which he is gent for selling, is meeting with rapid sale, a number of lots being sold daily, and that the location and terms are too desirable to require a boom to sell it. There is, however, a "building boom" upon it.

Regina.

A dinner party of an interesting character took place on the 6th inst., at Regina. The spread was in the Criterion Hotel (controlled by F. Granville, Brandon), a wooden structure roofed with canvas. Little more than a month ago there was not a tent in Regina, and now there are nearly a hundred structures of a frontier character. His Excellency the Lieutenant-Governor of Ontario was in the chair, and on his right was Col. Shurtcliffe, of Fort Walsh; Capt. Retallack, formerly military secretary and chief A. D. C. to Sir Edmund Head and Lord Monck; and Dr. Rae. On his left Capt. Steele, Mrs. E. Hughes, of Bradon, and R. W. Cameron, of New York, late Honorary Commissioner for the Canadian Government to Australia. Among the company were Messrs. W. B. Scarth, James Scarth, Rufus Stevenson, L. A. Hamilton, C. P. R., N. F. Davin, Alph. Smith, W. Pearce, Mr. Hughes, G. W. Baker.

The Chairman having proposed "The Governor-General and the Princess Louise," Capt. Retallack proposed "The Lieutenant-Governor of the Dominion," to which

The Chairman, in responding, dwelt on the enterprise of the Canadian people, as manifested by what they saw around them, and the result of which, he hoped, would meet their expectations. He was glad not only to be the first Chairman at a meeting here, but the first Governor of any Province to take the chair in this new city. Chiefly so, because he was aware of the great interest which the people of Ontario took in the future of the country. (Cheers). He proposed, in complimentary terms, "Success to the Mounted Police."

Dr. Rae then proposed "Prosperity to Regina." As a Scotchman he was bound to say he did not like flat plains, but though there were no mountains, he had no doubt the fertility of the soil would make Regina a very flourishing city. (Cheers.) As to the difficulty of getting water, he was assured that an eminent engineer said the creek could be dammed so as to give water to a large city. He had tried the water and found it excellent, and it would be all the better when it was dammed. He knew that the country round was a beautiful agricultural country. More than twenty years ago he had gone through it on a hunting excursion, and knew the land well, and it was one which could make and support a great city. (Cheers).

Mr. Rufus Stephenson returned thanks for Regina, and in the course of an excellent speech said, that if the young people would only go over the road it could not fail to raise the national sentiment of the country. (Cheers).

The Chairman then proposed the health of Messrs. W. B. and James Scarth. In doing so he dwelt on the energy and financial grasp of the subjects of the toast, and pointed out that Mr. W. B. Scarth had greatly advanced the interests of the country and his usefulness could not fail to be enhanced now that his brother was associated with him. (Cheers).

Speeches were also made by several other members of the party.

During the evening several songs were sung, and a most enjoyable and enthusiastic dinner party was brought to a close by singing "God Save the Queen."

The Turtle Mountain Murder.

The trial of the man Leveccque for the murder of Leganit was finished on Friday last when the jury rendered their verdict of "Guilty." The judge sentenced him to be hanged on the 24th November. The prisoner was an Ottawa man, and a petition has been circulated and largely signed in that city, asking for a commutation of the death sentence Besides this, there are certain legal quibbles, which are made for the purpose of saving the prisoner's life. Several of the members of the jury were challenged, and in order to make the complement, some were chosen from the audience. This is said to be against the statutes of the province. Besides this one of the jurymen had an altercation with the condemned some time ago, and others were of the opinion they were convicting of manslaughter.

STRAYED.

Came into my herd at Virden one yoke of Oxen, which the owner can have by paying expenses. J. W. EDWARDS. 40-3t

NOTICE.

The partnership heretofore existing between the undersigned as general merchants at the town of Virden, Province of Manitoba, has this day been dissolved by mutual consent. JAMES DOWNS will carry on the business, collect all accounts due the partnership, and assume all liabilities thereof.

Dated 11th Oct., A.D. 1882.

County Council Proceedings.

The Council met at the office of Messrs Pondrier and Brownlee on Oct. 18, 1882. Mr. Scott in the chair pro tem.

Present, Messrs. Hetherington, Taylor and Evans.

The minutes of the previous meeting were read and adopted.

Communications were read from T. D. Woodcock applying for the position of Collector for the whole county.

From Samuel Townsend applying for the position of Collector for Ward No. 1.

From John McCort applying for the position of Collector for Ward No. 5.

From the trustees of the Northfield School District in reference to the amount to be raised by taxes for school purposes.

From J. B. Stewart in reference to the amount to be raised by taxes for the Grand Valley School District.

From Samuel Townsend in reference to the value of the Chesley School District.

From Wm. Burr, Clerk of the County Court enclosing account and asking the Council to furnish a suitable office.

Tenders were read from Duncan McLean for building the approaches to Boggy Creek Bridge.

From Wm. McDonald for grading the approach to the Little Saskatchewan Bridge, also for grading approaches and building one span of the Doran Creek Bridge.

From Peter Fair for grading approaches of Baker's Creek Bridge

From James Davidson for grading approaches and building one span of the Doran Creek Bridge also for grading the approaches to the Little Saskatchewan Bridge.

From Wm. Dougherty for grading the approaches to Boggy Creek Bridges.

From Malcolm Stewart for grading the approaches of Boggy Creek Bridges.

From H. W. Johnston, to furnish material and construct a bent bridge across Doran's Creek, also for grading the approaches to Boggy Creek Bridge.

From Messrs. Brooks and Greenwood for grading the approaches to Boggy Creek Bridge.

From Angus Campbell for building the approaches to Stoney Creek Bridge.

The tender of A. Campbell was accepted for building the approaches to Stoney Creek Bridge.

The tender of Messrs. Brooks and Greenwood was accepted for grading the approaches to Boggy Creek Bridge.

The tender of Mr. P. Fair was accepted for grading the approaches to Baker's Creek Bridge.

The tender of James Davison was accepted for grading the approaches to Doran's Creek Bridge, also for building the single span.

The tender of Wm. McDonald was accepted for the grading of the approaches to the Little Saskatchewan bridge.

The engineers were instructed to take levels of bridge approaches wherever necessary as early as possible, so that contractors may proceed to work at once, also to state the level of Souris City bridge.

A report was read from the county engineers respecting an examination of the ravine between sections 16 and 21, Tp. 20, range 20, also an examination made of the two stone abutments and centre pier built by Gilbert Wood at Plum Creek.

A so a report read from R. B. Hetherington, Committee appointed to examine the road allowance between sections 36 and 31, Tp. 11, ranges 16 and 17 West.

The engineers report was adopted as regards the bridge over the ravine on the trail west of Brandon, and instructed to advertize for tenders for the erection of said bridge.

The engineers were instructed to advertize for tenders for the construction of a bridge over Plum Creek in accordance with their report. And to examine the crossing of Black Creek, between sections 28 and 29, in Tp. 7, range 17, west, and to make a plan and advertize for tenders for the same together with the approaches.

To call for tenders for the erection of a bridge over Willow Creek on the road allowance between sections 12 and 13, Tp. 11, range 18, west.

To call for tenders for the construction of a bent bridge over Kirby's Creek, between sections 36 and 31, Tp 11, ranges 16 and 17, on the road allowance as per report by Mr. Hetherington.

To call for tenders for two spans of 16 feet each to be added to the bridge on Neeland's Creek.

To call for tenders for the erection of a bridge over the Big Souris River at Milford, according to plans and specifications thereof.

To advertize for tenders for a bridge across the slough near Alexandria station, on the Car. R., in accordance with the plans thereof.

Also to examine and make plans and advertize for a bridge across Stoney Creek, between sections 1 and 6, Tp 11, ranges 17 and 18, west.

The account of W. H. Johnston was ordered to be paid for the construction of the bridge on Neeland's Creek, between sections 19 and 24, ranges 16 and 17, west.

Mr. L. T. Evans' name was placed on the Finance Committee instead of Mr. G. A. Laird, who is likely to be absent for some time.

Mr. Evans gave notice that he would introduce a by-law to amend by-law No. 26, at the next meeting.

A by-law, No. 42, was introduced to appoint Collectors of Taxes in the several wards of the municipality, and read a first time.

The Council adjourned to meet at Souris City on Thursday, the 2nd Nov, at 2 o'clock p.m.

The Ontario Elections.

Eight seats had been rendered vacant by the resignation of Local members to contest Dominion elections in the same counties. Of these North Renfrew was disposed of by a compromise arrangement between the two parties, the Liberals agreeing to the election by acclamation of Mr. W. B. McAllister on condition of his giving the Mowat Government a fair and independent support, Mr. McAlister was at the time of his election President of the Conservative Association, and the arrangement was made for the sake of avoiding the trouble and expense of a contest in which the representation of the constituency for only one session would be involved. The seat was held before last June by Mr. Thomas Murray, Liberal. In another of the eight constituencies, Muskoka, the election rendered necessary by the resignation of Mr. J. C. Miller, Ministerialist, will take place on the 30th inst. The candidates are Mr. Bettes, Liberal, and Mr. Trowse, Conservative. The following table gives the six constituencies in which elections were held on the 19th, together with the names and majorities of the successful candidates at the general election in 1879:—

	REFORM.	CONSERVATIVE.	MAJ.
S. Bruce	Wells		60
S. Essex	Wigle		157
Glengarry		McMaster	40
W. Hastings		Robertson	327
S. Waterloo	Livingstone		428
E. Simcoe		Cook	348

On Wednesday the members returned by the same constituencies were:

	REFORM.	CONSERVATIVE.	MAJ.
S. Bruce	O'Conner		60
S. Essex	Balfour		100
Glengarry	Rayside		64
S. Waterloo	Masters		400
E. Simcoe	Drury		221
W. Hastings		Ross	200

It thus appears that the Mowat Administration makes a gain of two supporters out of the six seats, while North Renfrew remains practically as it was, and Muskoka is likely to return the Ministerial candidate.

What not to Kill.

The French Minister of Finance has done a good deed in causing a placard to be posted which it would be wise for citizens of all countries to have before their eyes. It tell farmers, sportsmen and boys and others what creatures—heretofore by a multitude of ignorant people—considered to be pests to be slated—not to kill, as follows:

Hedge-hog.—Live mostly on mice, small rodents, slugs and grubs—animals hurtful to agriculture. Don't kill the hedge-hog.

Toad.—Farm assistant; he destroys from 20 to 30 insects per hour. Don't kill the toad.

Mole.—It is constantly destroying grubs, large palmer worms and insects injurious to agriculture. No trace of vegetation is found in its stomach. Don't kill the mole.

Birds.—Each department looses several millions annually through insects. Birds are the only enemy able to contend against them vigorously. They are the great caterpillar killers and agricultural assistants. Children do not destroy their nests.

Lady-bird.—Never destroy, for they are the best friend of farmers and horticulturists, and their presence upon aphis-ridden plants is beneficial.

While staying in water 100 hours in Boston, Capt. Webb used as his dining-table a board about thirty inches square, with an edge raised upon it to prevent the water from splashing and wetting the food, and also to prevent the food from slipping into the water. In the centre of this board, underneath, was a handle similar to the handle of a mortar-board; and with this the Captain steadied and supported the food with one hand and fed himself with the other. When nature demanded that he should sleep the Captain drew his legs into the position they would take if he were sitting down, and folded his hands behind his head.

To the Editor of THE BRANDON SUN:

SIR,—The policy of the Government in regard to the dry wood in this part of the Province is a conundrum, the solution of which would require the most profound consideration of Oscar Wilde. It would be difficult to estimate the enormous revenue the Government is yearly deriving from the quantities of dry wood that is rotting and being destroyed by fires or otherwise wasted. Last year there was enough wood destroyed by fire in the Brandon Hills to last Brandon a twelve-month, but the Government, with a leatherheadedness that is appaling, seems to consider this the most effective way of reducing the temperature of our climate. A considerable revenue might be derived from a proper regulation, for the farmers to cut and sell the dry wood, and thus, in a great measure, prevent the destruction of what little green wood is left. The laws for the preservation of our forests must be enforced, and certainly the most effective way of doing this is by leaving the way open for a yearly bonfire in every green bluff. So reasons the Government. It is, perhaps, unnecessary to estimate the number of shivering wretches in Brandon; the Government is merciless and should be visited by a missionary, or referred to the case of Shylock.

The city cannot depend on the wood brought in on the trains, as the rush of freight makes the supply very uncertain, but they have the pleasing assurance that they can imagine themselves in Borneo, when the mercury falls to 40 degrees below zero. BADGER.

The old adage about pouring "oil upon the troubled waters" is about to be tested in a most practical manner. A few weeks since a number of "distinguished individuals" witnessed the laying down of the pipes along the banks at the entrance of Aberdeen harbour, Scotland, for the purpose of putting into permanent use "the practice of pouring oil on the water to calm it in stormy weather, and thus facilitate the entrance of vessels." The Glasgow *Herald* states that the Aberdeen Harbour Commissioners have been the first to avail themselves of this new plan." and its success or failure will be watched with keen interest throughout the United Kingdom. It will be some time before the project can be tried, as the laying of the pipes is a slow process. The material to be used is fish oil, which can be obtained at a cheap rate.

There are indications that the Government, in order to conciliate Manitobans, proposed to transfer to the Provincial Government all public land in Manitoba not actually granted to railway companies. It is also expected that some important change in the North-west land regulations will be announced as soon as Hon. D. L. McPherson returns from Europe.

Four new postal cars have arrived for the Canadian Pacific Railroad west, and a daily mail will shortly be run to Moosomin, Wolseley, Indian Head, Troy, Broadview and Regina.

BY-LAW NO. 41.

A By-Law to raise thirty thousand dollars by Debentures for permanent improvements in the County of Brandon.

Whereas it is expedient and desirable to raise by loan on the credit of the municipality of the County of Brandon the sum of thirty thousand dollars, payable on the second day of October, in the year of our Lord one thousand nine hundred, with interest at the rate of six per centum per annum, to be applied to, and which has been estimated to be necessary, to making permanent improvements within the County of Brandon, hereinafter mentioned, that is to say:

1 For the construction of Roads and Bridges twenty-five thousand dollars.

2 For the construction of County Buildings, five thousand dollars.

And whereas, the sum of three thousand four hundred dollars will be required to be raised annually as a special rate for paying the interest and for creating a sinking fund for paying the said loan at the days and times when the same becomes payable by this By-law.

And whereas, the amount of the whole rateable propethe of the County of Brandon, according to rity last revised assessment rolls, is two million five hundred and ninety-eight thousand three hundred and five dollars ($2,598,305); and whereas, to raise the said yearly sum of three thousand four hundred dollars the annual special rate upon the said ratable property will require to be one and one-third mills in the dollar; therefore, the Warden and Council of the County of Brandon, in council assembled enact as follows:

1. That the sum of thirty thousand dollars be raised by way of loan upon the credit of this municipality.

2. That Debentures in sums of not less than one hundred dollars each be issued by this Council, not exceeding in the whole the sum of thirty thousand dollars.

3. That the Debentures to be issued therefor be made payable on the second day of October, in the year of our Lord one thousand nine hundred, and bear interest at six per centum per annum, payable half yearly on the second days of April and October each year.

4. That the Debentures may, both as to the principal and interest, be made payable at any place in Great Britain, Ontario, Quebec, or Manitoba, and may be expressed either in sterling money or in the currency of the Dominion of Canada.

5. That the sum of thirty thousand dollars being the amount required for and necessary to repay the expense of the permanent improvements herein mentioned be laid out as follows: In the construction of Roads and Bridges, twenty-five thousand dollars; county Buildings, five thousand dollars.

6. That the annual special rate of one and one-third mill in the dollar upon the assessed value of all the ratable property in the County, according to the last revised assessment rolls of this municipality over and above all other rates and taxes, shall be raised, levied and collected annually from the year one thousand eight hundred and eighty-two to the year one thousand nine hundred inclusive, for the purpose of paying the said loan of thirty thousand dollars and interest as aforesaid.

7. That Friday, the 27th day of October next, be the day fixed by this By-law for taking the votes of the electors of this municipality thereon, from 10 o'clock a. m. to 4 o'clock p. m.

8. That the following shall be the polling places in the county at which the votes of the electors shall be taken on this by-law: Ward No. 1, section 32, township 7, range 17, west; John Wear, returning officer. Ward No. 2, section 18, township 10, range 18, Dr. W. J. Graham, returning officer. Ward No. 3, section 13, township 11, range 18, F. Clegg, returning officer.

9. That this by-law shall come into operation and take effect from the day of its final passing, according to the date hereof.

Done and passed in Council of this County of Brandon, this second day of October, in the year of our Lord one thousand eight hundred and eighty-two.

(Signed), GEO. RODDICK, Warden.
JNO. WETHERILL, Clerk.

I certify the above is a true and correct copy of By-law No. 41, passed October 2nd, A.D., 1882.

WOODWORTH ESTATE LOTS.

FULL AND SUFFICIENT DEEDS

Purchase your Residence and Business Sites in

THE CHOICEST LOCATIONS

AND SECURE YOUR DEEDS AT ONCE.

It is scarcely necessary to enter into a lengthy description of the advantages to be derived by settling in Brandon, as its growth during the past summer has shown that it is decidedly the CITY OF THE WEST. Yet it behooves all who come here and purpose remaining to provide for themselves as soon as possible comfortable houses and good points of business. These can be had from Mr. Woodworth and at first prices. When you can secure such property as he offers you, and at the prices, it is folly to go elsewhere and purchase through outside agents, getting inferior locations and paying much higher figures.

The completion of the First Street Bridge brings right past the door of this property all the traffic to the North and West of the Assiniboine, and therefore adds greatly to its value. Of this purchasers have the benefit.

BRANDON PLANING MILLS!

PLANING, MATCHING and SAWING.

White Pine, Mouldings, Sash and Doors, Window and Door Frames, constantly on hand.
